

**Report****COVID 19 Death Cases in Alabr- Hadramaut Governorate**

Report date: 30/11/2021

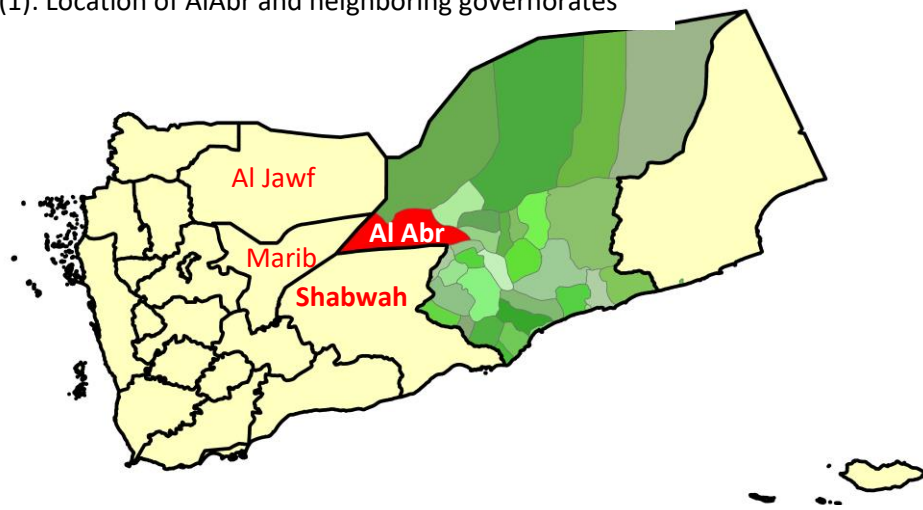

Day: Tuesday

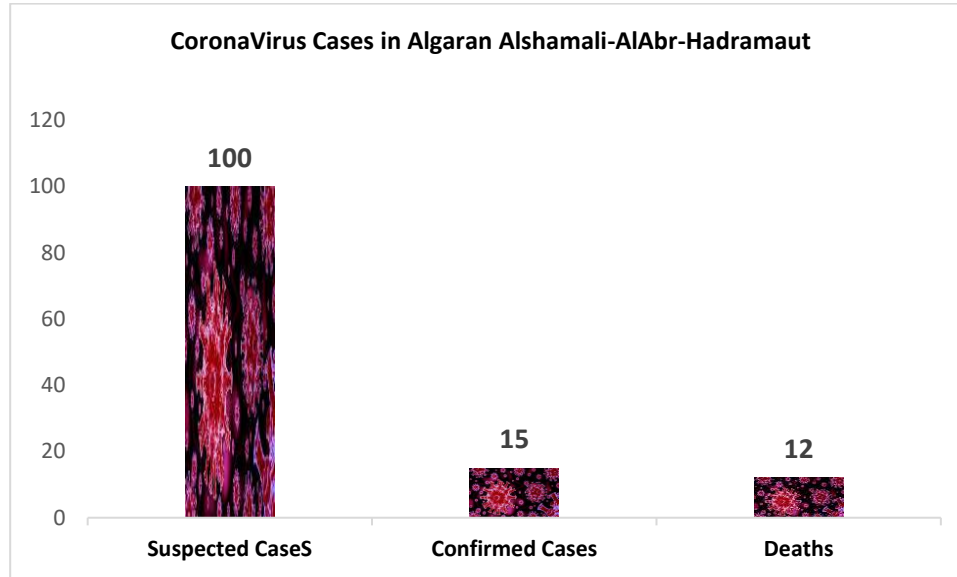

Time: 11a.m. (Yemen local time)

Introduction

Al Abr District is one of Hadramout Al-Wadi and the Sahara districts that lies in the west of Hadramaut. It has a population of about 6000 and an area of 7764 km². Algaran Alshamali is a Bedouin gathering in Alabr. It has a small population mostly (Bedouin). Currently, the district hosts thousands of IDPs. There are (875) households with (5217) individuals in Algaran Alshamali (most of them are Bedouins fled from Al Jawf Governorate). Over the period Oct. and Nov. 2021, the district witnessed the outbreak of different types of fever and some confirmed cases of Covid 19. (15) confirmed cases, (12) deaths and (100) suspected cases were recorded. For its part, the Executive Unit issued two urgent appeals to the OACH and humanitarian partners. The first urgent appeal was issued on 27/09/2021 but the response was weak. The Saudi Field Hospital intervened but could not cover all the cases. Public Health Office team visited the site to evaluate the situation. The second urgent appeal was issued on 17/10/2021. Alawn Foundation responded and covered some cases. Health Office manager responded and issued directions to include IDPs in the vaccination campaign (even without registration in the electronic website). A team would visit the camps when the vaccine reaches.

Recommendations

The following is recommended:

- The Ministry of Public Health and Population and the Yemen's Supreme National Emergency Committee for Coronavirus should form a joint medical team with humanitarian NGOs working in Yemen to visit the site to evaluate the situation and take necessary (actinons) measures to stop the outspread of the pandemic.
- All humanitarian NGOs working in Yemen should contribute effectively (via relevant sectors) to fight the spread of the pandemic.
- Sending a medical team to vaccinate the IDPs in the site and other sites as soon as possible.

Conclusion

Algaran Alshamali is Bedouin gathering in Alabr district witnessed the outbreak of coronavirus. It hosts (875) households with (5217) individuals. (15) confirmed cases, (12) deaths and (100) suspected cases were recorded in the site. Two urgent appeals were issued but the response was weak. There are fears of widespread of the coronavirus that might lead to catastrophic situation in the IDPs camps and the host community. Urgent intervention is strongly recommended by NGOs and governmental authorities.
